✓ **GET INVOLVED, JOIN A COMMITTEE!!!**

CHAPTER OFFICER NOMINEES WANTED!!!

Nominees for next year's Broward Chapter Officers are currently being received by the nominating committee. The position of a local officer usually starts with Secretary, then Treasurer, then President-Elect, then President, then Past-President. The five year commitment requires dedication, energy, and a strong belief in the society and its purpose. If you or someone you know has these qualities and wants to become involved in the Florida Engineering Society, please contact Jason McClair at 954-730-0707 x 106, or jmclair@chenandassociates.com.

THIS MONTH'S PROGRAM...

This month's presenter, Mr. Alan W. Garcia, P.E., will be speaking about Broward County's Neighborhood Improvement Projects. Mr. Garcia is the Director of Environmental Services at the Broward County Office of Environmental Services (BCOES), and is the acting Director for the Environmental Engineering Division of BCOES. He has received a Bachelor of Science from FAU, a Master's of Science from UF, and has completed Post Graduate work toward his Ph.D. at FAU. His professional experience has taken him from consulting, to the City Engineer for Pompano Beach, to a Senior Principal Engineer at Hazen and Sawyer, and finally to his current position with the County. Mr. Garcia is an active member in the American Society of Civil Engineers, the American Water Works Association, and the American Public Works Association.

PRESIDENT'S MESSAGE

Sandra Smith, P.E

Broward Chapter President, 2001/2002

As the Broward Chapter of the Florida Engineering Society moves toward the close of our year, a look back at some of the planned activities for the year shows that we have met most of our goals for the year.

Our annual golf tournament had a great turnout! While enough money was raised to fund this year's \$2500 scholarship, and while it appeared enough was also raised to meet our goal of depositing \$1000 into our Florida Engineering Foundation endowment fund, our country experienced signs of a recession requiring us to consider postponing this contribution for next year. As our final numbers are tabulated for the year, it will be close, but so far it looks as if we'll have succeeded in achieving this goal! (As a side note: With how busy so many of us seem to be, it's hard to believe this may have been a recession, but we hope those members of our chapter that were impacted find their new successes just on the horizon, and wish them luck in their endeavors.)

We are also very proud of the "build a playground" project for Lauderdale Manors Park. Assisting the City by raising the funds to match their contribution, followed by the donation of time made by the FES members as well as the members of the firms that contributed, helped our chapter reach a goal of increasing the public awareness of engineers in our communities. Other contributions were made to this effort include our continued role in the MathCounts competitions, the Discovering Engineering program that was launched last year, and the donation of our time and money to the Waterway Cleanup Program. (Another side note is to congratulate the leaders involved in the Waterway Cleanup Program for Broward County, which celebrated its 25th year this year.)

A goal for the year was to increase attendance at our monthly meetings to an average of 30 people, about a 20% increase over the typical attendance of last year. So far we've been successful at achieving that goal for each meeting this year and we look forward to exceeding that goal with our final meetings of the year. You can help us reach that goal for these final meetings by coming to the meeting to show your support of the chapter.

Each of these goals, while achieved so far for this year, require continued efforts in the years to come so our chapter can continue to grow and prosper. Continue to be a part of our success . . .

. . . if you don't usually attend meetings, plan to do so for at least one meeting per year

. . . if you do usually attend, plan to take it one step farther and make a commitment to become a part of one of the committees.

I trust that each of you will continue to give the support with which you've aided in our success this year, and for that we say thanks!

MAY 2002

FES WANTS YOU TO GET INVOLVED!!!

2001-2002 CHAPTER OFFICERS

President	Sandra Smith	436-7000
President-elect	Terrance Glunt	725-8100
